Revised date: 12/30/2020

PHASE 1
Winter

1A

Highest-risk health care workers and individuals:

- People who have direct contact with COVID-19 patients for 15 minutes or more over a 24-hour period.
- Long-term care facility staff and residents.

1B

Coloradans age 70+, moderate-risk health care workers, first responders, frontline essential workers, and continuity of state government:

- Health care workers with less direct contact with COVID-19 patients (e.g. home health, hospice, pharmacy, dental, etc.) and EMS.
- Firefighters, police, COVID-19 response personnel, correctional workers, and funeral services.
- People age 70 and older.

- Frontline essential workers in education, food and agriculture, manufacturing, U.S. postal service, public transit and specialized transportation staff, grocery, public health, frontline essential human service workers, and direct care providers for Coloradans experiencing homelessness.
- Essential officials from executive, legislative and judicial branches of state government.
- Essential frontline journalists.

PHASE 2
Spring

2

Higher-risk individuals and other essential workers:

- People age 60-69.
- People age 16-59 with obesity, diabetes, chronic lung disease, significant heart disease, chronic kidney disease, cancer, or are immunocompromised.
- Other essential workers and continuity of local government.
- Adults who received a placebo during a COVID-19 vaccine clinical trial.

PHASE 3
Summer

3

The general public:

- Anyone age 16-59.

***Timeline subject to change based on supply chain. Prioritization subject to change based on data, science, availability.**

Note: CDPHE recognizes the Tribal sovereignty of the Ute Mountain Ute and Southern Ute Indian Tribes, and that the Tribes have the authority to determine how vaccine supply will be prioritized for their populations, even if their prioritization scheme is different than what CDPHE recommends. Some federal entities such as the Bureau of Prisons, Department of Defense, Department of State, Veteran's Hospital Association, and Indian Health Services will be vaccinated by the federal government. Children and pregnant people are not included in this preliminary phased approach; they may be prioritized for vaccine contemporaneously when/if safety and efficacy data are available with the appropriate ACIP recommendation.
