

- 1) The county is looking for bids for 3 projects please email Collin.Koop@kitcarsoncounty.org or drop off sealed bids to the administration office at the courthouse. If you have any questions about the projects, you may call Collin at 719-343-0850.
- 2) The Health and Human Services building will need everything concrete and asphalt torn out and replaced all with concrete. This will need to be done in two stages, cutting the lot in half in a north side and south side so work can go on as usual. On the building there is lots of spots that have problems with settling and maybe some foundation problems. We would like to have correct curb and gutter in all the vertical drop spots as well. Everything in the photo below the yellow outline represents the new concrete area.

- 3) At the Farm Credit of Southern Colorado Show Pavilion at the fairgrounds we are looking to get bids to increase the concrete in the building. We would remove the earth from an area that is 67 feet by 120 feet and 6 inches thick. We would like the bid to be complete with removal of dirt from the area we can assist with dump trucks and some stuff. No rebar will be needed for this project.
